

planetary

Company: Planetary SA

Role: *Project Management Officer (Engineering, Science and Commercial projects)*

Location: Fribourg, Switzerland OR Geneva, Switzerland

Start date: July/August 2022

Terms: 80-100% time commitment

Salary: Competitive compensation and participation in an attractive employee stock option plan

The Company:

Planetary is SCALING THE NEW PROTEIN REVOLUTION. We are a venture backed food-tech company with 12 FTE across 3 locations. By building industrial-scale bioprocessing capacity and IP globally we are enabling a sustainable shift in the food system from livestock to non-animal proteins. To support the construction of our first plant, Planetary is searching for an experienced project manager to support our engineering team.

The Position:

- Oversees large CAPEX implementation projects: controlling basic and detail engineering, as well as construction and commissioning
- Defines the list of dependent projects, processes, and decisions that need to be completed to reach the overall project goals.
- Resolves and balances conflicting priorities and timelines; Maintains cross-functional view and influences across multiple functional areas, including Regulatory, Quality, Procurement, Planning, Sales and more.
- Manages project deliverables through effective constructions of timelines, schedules, deliverables and stakeholder management.
- Communicates project status to all levels of the organization as required along with any changes to original scope and/or commitments.
- Coordinates the identification and resolution of project risks and issues. Effectively utilizes the project team to drive continuous improvement and facilitate resolution.
- Reporting directly to CEO

Qualifications and Experience:

- Masters degree in Engineering, Business Management, or related
- 10+ years of business experience across multiple disciplines and large CAPEX project management experience in pharma, biotech, engineering, or similar
- Knowledge of process engineering, food plant construction, planning, and process technology strongly preferred
- Previous project management experience and leadership of teams which are diverse and cross-functional
- Full working proficiency of both English and German
- Demonstrated ability to apply independent judgment to solve problems; inspires loyalty and trust; handles oneself ethically, ability to motivate, ability to lead without formal authority; ability to influence outcomes; ability to get things done through others; agile mindset.
